Resource Guides

The purpose of Resource Guides is to provide information that helps you do your job better. This information includes reference material, procedures, and guidelines that help you complete the tasks you are required to do by policy.

It's important to remember that the information in Resource Guides does not substitute for policy. We may sometimes include policy statements, but only to show you the policy to which the information is related. We will highlight any policy that actually appears in the Resource Guide and will almost always include a link to the actual policy. For example:

Per 4222.2 Re-Allowing Placement:
If the caseworker learns of a detailed justification for changing the status of and considering placements in a foster family that is on Disallowed Placement status, the caseworker must elevate this consideration through the regional chain of command to the regional director.

The policy in the handbook always takes precedence over what is in the Resource Guide. We try to keep policy and Resource Guides synchronized, but sometimes there is a delay. If you have questions, always follow the policy in the Policy Handbook.

Resource Guides provide important information on a range of topics, for the purpose of assisting and guiding staff to:

- make essential decisions
- develop strategies to address various issues
- perform essential procedures
- understand important processes
- identify and apply best practices

The information in the Resource Guides is not policy (except where noted), and the actions and approaches described here are not mandates. You should adapt the way you perform critical tasks to the individual needs and circumstances of the children and families with whom you work.

State office and field staff are working together to identify Resource Guide topics, define the content, and develop the appropriate guides. CPS will regularly post Resource Guides as they are developed and update them as needed. Check the Resource Guides page, in the CPS Handbook, to see new or revised Guides.

We hope these Guides provide useful information to guide and assist CPS staff in effectively performing their job tasks. These Guides, combined with clear and concise policy in the Handbook, should help staff provide a high level of service to children in Texas.
Overview

Children and youth are in foster care because they, or their sibling(s), have experienced abuse and/or neglect and the risk to their safety could not be mitigated through less restrictive interventions. When children and youth in the conservatorship of the Department of Family and Protective Services (DFPS) are missing or have run away, it is important to recover them as soon as possible to ensure child safety and minimize potential to experience violence, abuse, neglect, or trafficking victimization. This guide helps you determine timeframes, responsibilities, and actions to be taken when a child or youth is missing or runs away from care.

Per CPS Handbook 6460 When a Child or Youth is Missing from CPS Conservatorship:

Staff in Bexar, Dallas, Harris, Tarrant, and Travis counties, which participate in the Human Trafficking Response Protocol, use this Resource Guide as the procedures to follow when looking for children and youth who run away or otherwise go missing from DFPS Conservatorship.

Staff in all other counties use the Locating Missing Children in DFPS Conservatorship Resource Guide.

The primary caseworker will continue to have primary responsibility for the case while working closely with the assigned Special Investigator (SI) until the child or youth is recovered. In addition, this guide contains the following resources to assist staff:

- Interview Guide: Missing and Abducted Child or Youth Interview.
- Resources on Human Trafficking.
- Flow chart for Missing and for Recovery of CVS Children and Youth.

The following protocols apply to all stages of service. In addition, if anyone involved in the child’s case learns that a child, youth, or young adult aged 0-20, is missing or has been abducted, they must work with the primary caseworker to provide notification to:

- The appropriate law enforcement officials in the jurisdiction where the child or youth went missing; and
- The National Center for Missing and Exploited Children (NCMEC).

The regional director assistants serve as the Missing Children Regional Coordinator and point of contact on missing children issues, and ensure every missing child and youth is being tracked. **It is crucial for primary caseworkers to coordinate all missing children and youth efforts with the assigned SI.** It is extremely important that the Special Investigations (SI) Division has access to updated case information pertaining to children and youth that are missing.
Background
In 2014, President Obama signed into law the Preventing Sex Trafficking and Strengthening Families Act, Public Law (P.L. 113-183), amending reporting requirements for missing children and suspected victims of sex and labor trafficking. This law amends the Title IV-E foster care program and requires child welfare agencies, such as DFPS, to collect additional information on children and youth who run away in an effort to prevent future occurrences. For example, the law required DFPS to develop and implement specific protocols for:

- Expeditiously locating any missing child from foster care.
- Determining the primary factors that contributed to the child running away or otherwise being absent from care, and to the extent possible and appropriate, responding to those factors in current and subsequent placements for the child.
- Determining the child’s experiences while on runaway or otherwise absent from care, including screening to determine if the child is a possible victim of sex trafficking.

What is Human Trafficking?
Human Trafficking is the recruitment, harboring, transportation, provision, or obtaining of a person for the purpose of a commercial sex act (22 U.S.C. 7102(11)-(12)), or for labor or services. Sex and labor trafficking are forms of human trafficking.

What is Sex Trafficking?
Sex Trafficking is the recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purpose of a commercial sex act (22 U.S.C. 7102(12)). This includes the exchange of anything tangible for a sexual act or the promise of a sexual act. For minors, the use of force, fraud, or coercion is not required.

What is Labor Trafficking?
Labor Trafficking is the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery (22 U.S.C. 7102(11)(B)).

What is the Child Sexual Exploitation Identification Tool (CSE-IT)?
The CSE-IT (pronounced “see it”) was created by West Coast Children’s Clinic. It is a screening tool that aids in detecting risk of sexual exploitation. The tool is designed to ensure early identification of sexual exploitation and protect youth from prolonged abuse and violence. It is important to note that screening is not diagnostic. Rather, it is a preliminary step that prompts additional information gathering and interventions if problems or concerns are identified.

What is a “Confirmed” Human Trafficking Victim?
DFPS defines a trafficking event as “confirmed” when evidence supports the conclusion that the child or youth has been trafficked. The supporting evidence must be more than just an allegation or suspicion but does not have to be a direct outcry from the child or youth. See CPS Handbook 6462 Confirmed or Suspected Victims of Human Trafficking.

What is a “Suspected-unconfirmed” Human Trafficking Victim?
DFPS defines a trafficking event as “suspected-unconfirmed” when specific information regarding the child or youth and the surrounding circumstances creates a reasonable belief that the child or youth has been trafficked. A runaway or missing episode, in and of itself, does not equal to “suspected-unconfirmed.” See CPS Handbook 6462 Confirmed or Suspected Victims of Human Trafficking.

What constitutes a Missing Child or Youth?
A child or youth in DFPS managing conservatorship is categorized as missing if the child or youth, runs away, is abducted by a known/unknown person, or is otherwise absent from care with no known location.

See CPS Policy 6461 Child or Youth Missing from Substitute Care Placement
Statewide Intake

Notification to Statewide Intake (SWI) occurs when children or youth in conservatorship are missing or recovered. Statewide Intake will receive reports from providers notifying DFPS that a child or youth in conservatorship is missing or has run away, as well as when a child or youth has been recovered or returned to their placement.

Primary Caseworker Actions

Part 1: Initial Primary Caseworker Notifications When a Child or Youth is Missing or Runs Away

When a child or youth is missing or runs away, it is imperative that proper notifications be made. These events can occur during regular business hours or after hours, on weekends, or holidays. Part 1 discusses specific actions that must be taken by a primary caseworker, special investigator, or on-call CPI or CVS worker.

Notifications

During Regular Business Hours

The regional router will contact the assigned primary CVS caseworker’s program director to ensure the CVS supervisor and CVS primary caseworker are notified timely that a child or youth is missing or has run away.

Immediately, but no later than 8 hours after notification that the child or youth has gone missing or has run away, the caseworker makes the notifications cited in the CPS Handbook 6461.1 Notification Requirements.

The caseworker must follow any local rules that have been established and communicated to regional field staff when making required notifications. Generally acceptable methods of notification are telephone call, text message, or email.
The caseworker must complete the following notifications **immediately** when a child or youth is missing or runs away from DFPS conservatorship.

### Caseworker Notifications - Immediate:

| Designated Regional Mailbox (CC: regional director assistant (RDA) and supervisor) | • Email the designated regional mailbox to request a special investigator be assigned to assist in recovery efforts.  
• The subject line of the email should state, “Missing child request for assistance”.  
• Include in the email the Preliminary Sheet, Form K-908-4100, (if already completed).  
• If the Preliminary Sheet is not complete, include the following information in the body of the email:  
  • DFPS Case ID number.  
  • Missing child or youth’s name.  
  • Date of birth.  
  • IMPACT Person ID  
  • Legal county.  
  • Location child or youth went missing from, type of placement, and address.  
  • Region child or youth went missing from.  
  • Did the child or youth go missing alone?  
  • If not, who do you believe they may be with?  
  • Do you suspect the child or youth was abducted?  
  • Law enforcement agency name and case number.  
  • NIC Number generated from the National Crime Information Center (NCIC) Database (Note: This number is unique for each runaway event reported. The same number should never be used twice).  
  • National Center for Missing and Exploited Children (NCMEC) case number.  
  • Brief description of the circumstances surrounding the missing child or youth.  
• Any additional information requested by the special investigator program director (SIPD) or RDA regarding the referral. |
| Supervisor and chain of command | • Confirm that supervisor and program director for the primary caseworker are informed of child or youth’s missing status. |

Note: If any initial actions were completed after hours by on-call staff, refer to **Primary caseworker tasks on next business day, when on-call notifications occurred after business hours** in the After-Hours section to ensure all tasks have been completed.

### Information to Share or Obtain

### Notifications After Regular Business Hours

According to standard business procedures, SWI will notify the on-call CPI caseworker when an I&R involving an Existing CPS Case is received. Reports to SWI regarding a child or youth who has run away or is missing are treated as I&R referrals.

### The on-call staff and primary caseworker will make the following notifications:

<table>
<thead>
<tr>
<th>Action Required</th>
<th>Actions to be taken</th>
</tr>
</thead>
</table>
| Call out from SWI | According to standard business procedures, the on-call CPI caseworker will receive a call out from SWI of an I&R to Existing DFPS Case. The on-call CPI caseworker is responsible for contacting:  
• On-call CVS caseworker, and  
• On-call Special Investigator Program Director (SIPD) for special investigator assignment. |
| On-call caseworker tasks within 8 hours | • Within 8 hours, completes and documents notifications to law enforcement (unless completed by the child’s caregivers), NCMEC, and identified required parties. See CPS Handbook 6151.3 Notification Requirements and Schedule.  
• Notifies the primary caseworker and chain of command of the child or youth’s missing status. |
### Part 2: Primary Caseworker Initial Actions When a Child or Youth is Missing or Runs Away

When a child or youth runs away or goes missing, it is imperative that specific actions be taken in order to recover the missing child or youth. Part 2 discusses specific actions that must be taken by a primary caseworker.

#### Responding Caseworker Actions - Immediately, but no later than 8 hours of notification:

<td>• Provides a copy of all court orders granting DFPS conservatorship of the child or youth.</td>
</tr>
</tbody>
</table>

**Note:** If the caseworker believes that a child or youth has unwillingly left the substitute care placement or has been removed by an unauthorized person, the caseworker coordinates with the special investigator program director (SIPD) and the assigned SI to request that the child or youth be placed on the Amber Alert System when the missing child report is made to law enforcement. Local law enforcement officials will work with the Texas Department of Public Safety (DPS) to decide if Amber Alert criteria are met; see **Appendix A**.

**Part 3: Primary Caseworker Ongoing Efforts to Recover**

At times despite best efforts to recover a child or youth who is missing the recovery may not occur quickly. Part 3 discusses ongoing and active efforts that must be taken to recover the missing child or youth. Refer to policy in the CPS Handbook 6461.3 Ongoing Efforts to Recover.

**Primary Caseworker Actions - Ongoing:**

Part 4: Primary Caseworker Actions when the Child or Youth is Recovered

When the child or youth with a missing status has been recovered, specific actions must be taken by the primary caseworker or special investigator (SI). Like missing status, recoveries can occur during regular business hours or after hours, on weekends, or holidays. See the CPS Handbook 6461.4 When a Child who is Missing is Recovered and 6461.5 Caseworker Actions When a Missing Child Returns to Care.

Notifications relating to the recovery

The primary caseworker is responsible for making the notifications cited in the CPS Handbook 6461.1 Notification Requirements When a Child Runs Away or is Missing. Notifications are required to be documented in IMPACT. See the CPS Handbook 6461.5 Caseworker Actions When a Missing Child Returns to Care.

Recovery After Regular Business Hours
This section identifies the recovery tasks that should be completed when a child or youth is recovered or returns outside regular business hours (on-call) including tasks:

- On-call staff complete before on-call shift ends.
- Primary special investigator (SI) and CVS staff complete within the first two business days after an on-call recovery.

On the third business day after a child or youth was recovered during on-call hours, the primary SI and CVS staff must complete all subsequent tasks found in Recovery during Regular Business Hours section.

</table>
| **Complete a child or youth Recovery Interview** | As soon as possible, and with law enforcement cooperation, the primary caseworker and special investigator (SI) will coordinate an interview with the recovered child or youth. The interview(s) should consist of questions to determine:  
- If any child abuse and/or neglect occurred while the child or youth was missing.  
- Any indicators of human trafficking activities.  
- Other experiences of the child or youth while absent from care.  
- The reasons why the child or youth ran away from care.  
- See Appendix C Missing and Abducted Child Recovery Interview Guide.  
- The primary caseworker documents the results of the interview(s) in IMPACT and shares results of the interview with the special investigator, if the special investigator was not present.  
- Note: Recovery interview must be entered IMPACT within 7 days of the child or youth being recovered. |
| **Documenting a Missing or Runaway Recovery Episode in IMPACT** | Within 24 hours of the child or youth’s recovery, the primary caseworker must:  
- Enter the required child or youth’s recovery information on the Child Recovery Detail page in IMPACT.  
- This page must be completed in its entirety within 7 days of the child or youth’s recovery from missing or runaway status. |
| **Update child or youth’s placement** | On the day of placement or by 7:00 PM the next calendar day, the primary caseworker must update the child’s or youth’s placement status in IMPACT, if needed. |
| **Coordinate a Recovery Meeting, if child or youth is confirmed trafficking victim.** | Within three business days of recovery for a confirmed victim of trafficking, coordinate a Recovery Meeting to:  
- Implement and/or adjust the Recovery Plan to prioritize actions and to address the child’s or youth’s additional physical and emotional needs.  
- Finalize the decision whether to refer to the Children’s Advocacy Center (CAC)/Care Coordination Team (CCT)/Human Trafficking/CSEY Advocate Agency where available. (See CCT, and HT/CSEY Advocate Agency sections, Appendix E)  
- Note: This may be combined with the Youth Recovery Roundtable (wraparound meeting) if it meets the required timeframe of within three business days. |
<p>| <strong>Conduct Youth Recovery Roundtable (e.g., wraparound Meetings)</strong> | When a missing child or youth is recovered after a missing or runaway episode, the primary caseworker will follow their regional procedures and protocols to conduct a Youth Recovery Roundtable (see CPS Handbook 6461.5 Caseworker Actions When a Missing Child or Youth Returns to Care) with the child or youth. This meeting also allows the child or youth an opportunity to discuss the reasons for runaway behaviors and to develop alternatives to running away in the future. |
| <strong>If a child or youth discloses sexual victimization</strong> | • Immediately notify the correct law enforcement jurisdiction, where victimization occurred, unless there is an existing law enforcement case. |</p>

If the primary caseworker confirms or suspects that the young adult is a victim of sex or labor trafficking, the primary caseworker notifies law enforcement.</td>

**Special Investigator Actions**

**Part 1: Special Investigator Actions to Recover a Missing Child or Youth**

When DFPS is notified that a child or youth is missing or has run away, a special investigator (SI) is assigned from the child’s or youth’s legal region and the regional director assistant (RDA) is notified. If the SI needs assistance from another region, the SI e-mails a courtesy request to the designated regional mailbox. The SI in the courtesy region will provide all necessary assistance to recover the missing child or youth.

**Special Investigator or Special Investigator Program Director - Within the first business day of DFPS of missing child or youth notification:**

| **Staff with the primary caseworker**                | The SI (from the child’s or youth’s legal region) will conduct a telephone staffing with the primary caseworker, primary caseworker’s supervisor, child or youth’s caregiver, and others identified by the primary caseworker. The SI confirms receipt of documents from primary caseworker to initiate recovery efforts. During the staffing, the SI:  
  - Reviews information submitted in email request and obtains additional information from the primary caseworker as needed. This includes obtaining the local law enforcement, NIC and NCMEC case numbers that the primary caseworker obtained. Refer to the Preliminary Sheet, K-908-4100.  
  - Confirms recent photos of the child or youth are uploaded in IMPACT.  
  - Gathers information on all relatives, friends, and associates.  
  -Obtains all relevant health information for the child or youth (including information on medications).  
  - Obtains a copy of all court orders granting DFPS conservatorship of the child or youth. |
| **Special investigator program director (SIPD) coordinates with CVS supervisor** | The SIPD contacts the CVS supervisor to determine if the missing child or youth has any history of human trafficking (suspected-unconfirmed or confirmed) to assist with recovery action plan. |
| **Provide information to law enforcement**            | The SI contacts law enforcement where the report was filed and provides law enforcement with:  
  - All photos.  
  - Court orders.  
  - Diagnoses.  
  - Medication information.  
  - Available information on family, friends, and associates of the child if not already done.  
  - Coordinate with local LE to develop a plan to locate the child or youth as quickly as possible.  
  - If appropriate, the SI conducts an initial search with law enforcement at the last known place the child was staying. The owner of the residence must provide permission to enter. If the SI has reliable or compelling information that the child or youth is there (for example, the child or youth is seen running into the residence), the SI relays that information to law enforcement who takes the lead in speaking to the homeowner. |

**Request a flier**

- The SI requests that law enforcement or NCMEC produce a flier on the child or youth, and the SI confirms that the child or youth is entered in the NCIC database.
- The SI documents this contact in IMPACT and includes the NIC number\(^3\).
- SI will ensure NCMEC has all required documents to produce a flier for the child or youth and follow-up with primary caseworker for additional information as needed.
- The SI provides the primary caseworker with a copy of any fliers produced by law enforcement or NCMEC.

**Obtain a Writ of Attachment, when applicable**

In some regions, the court may issue a Writ of Attachment to have the child or youth physically removed upon recovery and returned to DFPS care. If a Writ of Attachment is issued by the court, the SI contacts the applicable County Sheriff’s Department Civil Warrants Division or the local Constable’s Office to serve the Writ of Attachment. In some instances, this must be provided to a Sheriff’s Department or Constable’s Office, not a police department.

| **Report to the court** | As requested by the primary caseworker and/or ordered by the court, the SI reports to the court on the status of efforts to recover the child or youth. The SI documents their active efforts in the SUB stage narrative of the child or youth. |
| **Participate in quarterly staffing** | On a quarterly basis, participate in a staffing with CVS supervisor, CVS program director, other SIs involved, SIPD, and (RDA) to determine whether sufficient efforts have been made to recover the child or youth and whether other action is needed. This staffing will be documented in IMPACT. |
Part 2: Special Investigator Actions when the Child or Youth is Recovered

When a child or youth with a missing status has been recovered, specific actions must be taken by the special investigator and primary caseworker. Children and youth can run away or go missing during regular business hours or after hours, on weekends, or holidays and the same is true for their recovery.

Recovery during Regular Business Hours

When a child or youth is recovered during business hours, the following actions must be taken. See CPS Handbook 6461.4 When a Child Who is Missing is Recovered.

Special Investigator (SI) will follow the listed SI actions listed in the Recovery during Regular Business Hours in the Caseworker section of this document.

If the special investigator recovers the child or youth, the special investigator takes the following actions:

If human trafficking allegations are present, see Working with Victims of Human Trafficking Section regarding Child or Youth in DFPS Conservatorship who has been or is suspected to be Trafficked. |
| Forward all documents to the primary caseworker | Once the SI completes all required documentation, the SI forwards all hard copy documents to the primary caseworker to be placed in the case file. |
| Prior to removing the SI from the case | Upon the SI receiving notification from the primary caseworker that the child or youth has been recovered the SI:  
• Follows up with the primary caseworker to get information, help with interviews and offer any other assistance if needed.  
• Ensures that all SI efforts have been documented in IMPACT.  
• Requests to be removed as a secondary caseworker on the case from the primary caseworker or RDA. |
**Commercial Sexual Exploitation – Identification Tool (CSE-IT)**

High Risk children and youth include those who are 10 years of age or older, in DFPS conservatorship, and who are recovered from a missing or runaway episode. High risk children and youth who are recovered must have a CSE-IT completed at every recovery unless a previous CSE-IT resulted in Clear Concern.

All assigned staff, including supervisors, are responsible for providing information that informs the CSE-IT so the agency can respond appropriately to meet the child or youth’s needs. The CSE-IT should be used as a guide to identification and should not be the sole source for deciding whether the child or youth is being sexually exploited.

The completed CSE-IT will result in a total number that indicates the child or youth’s level of risk. The actions listed below will need to be completed by the SI or CVS Supervisor for completing the CSE-IT.

**Note:** The CSE-IT must be completed within 5 to 7 days after the child or youth is recovered.

Youth Parent with Child

Youth in conservatorship might have their child placed with them in foster care. The child will either have a:

- Regular SUB stage (SUB REG in IMPACT) if the youth parent’s child has been removed and placed in DFPS conservatorship; the child may or may not be placed with the youth parent; or
- A Case Related Special Request (CRSR) SUB stage (SUB C-PB in IMPACT) if the youth continues to have custody of the child, but DFPS needs to facilitate the daily reimbursement rate to the residential care provider (the youth’s placement).

If the youth parent runs and takes the child with a SUB REG stage with them:

- The primary caseworker for the child, if different from the youth parent’s primary caseworker, must be notified and involved in the location efforts.
- The placement actions in IMPACT for the child should mirror what is done for the youth parent. If the youth parent runs away and takes the child with a SUB C-PB stage with them:
  - The placement actions in IMPACT for the child should mirror what is done for the youth parent.
  - If appropriate, make an abuse and neglect referral on the child to SWI.
- If the youth parent and child are recovered and go to a non-DFPS paid placement, the SUB C-PB stage is closed.

<td>Any time a child or youth is ‘Suspected-unconfirmed’ or ‘Confirmed’ to be a victim of human trafficking, the assigned primary caseworker must enter a trafficking record in IMPACT on the Trafficking Detail page within 48 hours of notification. Notification means the primary caseworker has received reliable information that the child or youth is suspected or confirmed to be a victim. A trafficking event is ‘suspected-unconfirmed’ when specific information regarding the child or youth and the surrounding circumstances creates a reasonable belief that the child or youth has been trafficked. A runaway or missing episode, in and of itself, does not equal to ‘suspected-unconfirmed’. A trafficking event is ‘confirmed’ when evidence supports the conclusion that the child or youth has been trafficked. The supporting evidence must be more than just an allegation or suspicion but does not have to be a direct outcry from the child or youth. The notification could come from other individuals involved with the case (e.g., law enforcement, the child’s or youth’s attorney ad litem, a placement, service provider, etc.), an outcry by the child or youth, or other serious concerns and suspicions that confirm or indicate that the child or youth is or is suspected to be a victim of human trafficking. If the caseworker or anyone else has any indications that a child or youth is a ‘Suspected-unconfirmed’ or ‘Confirmed’ victim of human trafficking, the case must be staffed with the supervisor.</td>

**Coordination of Services Regarding Human Trafficking**

If a child or youth makes a disclosure of being trafficked, DFPS must ensure the immediate safety of the child or youth and notify the correct law enforcement jurisdiction and Statewide Intake (SWI) of the outcry. Once DFPS identifies a child or youth has been, is currently being, or is at risk of being sex or labor trafficked, DFPS will identify risk as well as mitigating factors to determine if services are needed to further reduce risk of trafficking. When needed, the primary caseworker should seek placements which specialize in long-term residential care for victims of human trafficking, as well as trauma-informed medical and psychological care for the child or youth. Current residential contract providers for DFPS utilize trauma-informed intervention services for victims of trafficking.

When planning for service provision for victims of trafficking, ensure coordination with local and state law enforcement, juvenile justice, and social service agencies. (See Appendix E.)

**Resources on Human Trafficking**

The Department of Family and Protective Services Human Trafficking and Child Exploitation (DFPS HTCE) Division has current information for services and resources on the Safety Net Human Trafficking page. (Internal link)
APPENDIX A: TEXAS DEPARTMENT OF PUBLIC SAFETY (DPS) "ENDANGERED CHILD" CRITERIA

An "endangered child" is one who is in foster care or in the conservatorship of the Department of Family and Protective Services and has been reported missing on two or more occasions in the 24-month period preceding.

The following is required so that law enforcement can properly enter the child or youth into the TCIC/NCIC system:

- Copies of prior missing person reports from law enforcement.
- A written statement from a parent, legal guardian, family member, or other authoritative source confirming prior incidents.
- A written statement from a parent, legal guardian, family member, the Department of Family and Protective Services or other authoritative source confirming the missing individual is in foster care or in DFPS conservatorship.
APPENDIX B: TEXAS DEPARTMENT OF PUBLIC SAFETY (DPS) AMBER ALERT CRITERIA

A requesting law enforcement agency must meet all the below criteria in order to activate the State AMBER Alert Network:

- Is this child or youth 17 years of age or younger, whose whereabouts are unknown, and whose disappearance law enforcement has determined to be unwilling which poses a credible threat to the child or youth’s safety and health?
  - If abducted by a parent or legal guardian, was the abduction in the course of a murder or an attempted murder?

OR

- Is this child or youth 13 years of age or younger, who was taken (willingly or unwillingly) without permission from the care and custody of a parent or legal guardian by:
  - Someone unrelated and more than three years older?
  - Another parent or legal guardian who attempted or committed murder at the time of the abduction?
- Is this child or youth in immediate danger of sexual assault, death, or serious bodily injury?
- Has a preliminary investigation verified the abduction and eliminated alternative explanations for the child or youth’s disappearance?
- Is sufficient information available to disseminate to the public to help recover the child or youth, a suspect, or the vehicle used in the abduction?
APPENDIX C: MISSING AND ABDUCTED CHILD RECOVERY INTERVIEW GUIDE

Interviewing children or youth following a missing event from foster care (missing, runaway, or abducted) can help to identify victims of child abuse or neglect as well as human trafficking; gain insight into their victimization experiences; and understand their individual service needs. An interview is necessary as many victims of child sex trafficking do not view themselves as a victim.

Texas Family Code Sec. 264.123 already requires certain protocols to help recover missing children and youth, including immediate reporting to law enforcement. Upon locating the child or youth, this same section also requires that DFPS attempt to determine whether the child or youth was a victim of any crime while missing and, if so, to report such crime to law enforcement within 24 hours.

Below is a list of questions to be asked, upon recovery, of all children or youth who were on missing status or abducted. The type and order of the questions should be tailored to individual situations and amended to enhance their effectiveness and support of the child or youth.

Conversational Interview

The interview should remain fluid and comfortable. Do not read the questions in order from a sheet; instead, engage the child or youth in conversation about them and their situation. When engaging with the child or youth, use phrases such as: “Tell me more about that,” “Help me understand,” or “I am wondering about.”

Tell me about your placement, what made you leave your current placement?
- Did anyone leave with you? If yes, where are they now? Who are they with? How do we get in touch with them?
- Tell me how you use social media to connect with people.
- Tell me how you chose that name for your Instagram, Facebook, Snapchat, etc. accounts.
- If you ever decide to run-away again, can you share with me your e-mail address so we can stay in touch?
- Have you ever had one of your pictures posted online advertising for sex?
- What made you decide to return to care? (if applicable)
- While you were gone, how did you survive?
- How did you eat, sleep, and have money to take care of yourself?
- While you were gone, where were the places you went and where did you stay?
- Did you get to see your old friends or did you make new friends?
- Were you able to talk to your family while you were gone?
- Were there experiences you weren’t prepared for or didn’t know how to handle?
- Who helped you while you were gone?
- What type of help was offered?
- Did you have to do anything in return for this help?
- Were you allowed to leave the place you were staying? Did someone try to stop you from leaving?
- Were you being made to do things that you do not want to do?
- Were you ever threatened with anything if you tried to leave?
- Did anyone ever force you to do something physically or sexually that you didn’t feel comfortable doing?
- Were you ever physically abused (shoved, slapped, hit, kicked, scratched, punched, burned, etc.) by anyone?
- Were you ever sexually abused (sexual assault/unwanted touching, rape, sexual exploitation, Etc.) by anyone?
- Did anyone take pictures of you?
- Were there any objects or weapons used against you or others?
- Did anyone ever give you alcohol, drugs or medications?
APPENDIX D: PRIMARY CASEWORKER AND SPECIAL INVESTIGATOR ACTIONS

Flowchart for Primary Caseworker & Special Investigator Steps When A Child Goes Missing or Runs Away

Primary Caseworker

- Notify Supervisor
- Notify Law Enforcement & NCMEC
- Request Special Investigator: email regional mailbox and supervisor and cc Regional Director Assistant (RDA)
- Notify required parties, as applicable
- Primary caseworker, staff and discuss case with assigned Special Investigator
- Request Amber Alert, if needed
- Document a missing or runaway child episode in IMPACT
- Conduct Youth Recovery Meeting, if confirmed victim
- Make ongoing efforts to locate child

Special Investigator

- Assigned to case and made secondary
- Discuss case and work with primary caseworker, gather information
- Provide information to law enforcement (LE)
- If law enforcement declines NCIC entry, then proceed with CISCAL
- Request Law Enforcement (LE) or NCMEC produce fiber, document in IMPACT; include NTC number
- Participate in Youth Recovery Meeting, if confirmed victim
- Search for child

Staff at least quarterly with Program Director until child is located
- Update living arrangement in IMPACT as needed & summarize efforts in monthly evaluation
- Work with Special Investigator

Maintain relevant contacts weekly: caseworker, LEA, NCMEC, etc.
- Report to court, as needed
- Conduct electronic searches and interviews
- Maintain monthly contacts with child or youth's relatives, former caregivers, and any state or local social service agency providing services to child or youth

Document in IMPACT efforts to locate
Flowchart for Caseworker & Special Investigator Steps When the Child is Recovered

**Primary Caseworker**

- **If Primary caseworker finds child**
  - Notify Special Investigator and PDA
  - Notify LE, NCMEC, & other required parties, as applicable
  - Primary caseworker arranges placement
  - Schedule Forensic Interview, if needed
  - Conduct interview with child; share information with SL; enter Recovery in IMPACT
  - Enter recovery information into IMPACT; caseworker should ensure all SI tasks are entered into the Recovery page
  - Conduct Youth Recovery Meeting, if confirmed victim
  - Conduct Youth Recovery Roundtable

**Special Investigator**

- **If Special Investigator finds child**
  - Retrieve child and coordinate transfer with primary caseworker
  - Ensure Forensic Interview is scheduled, if needed
  - Conduct interview with child; involve primary caseworker
  - Enter recovery information into IMPACT; caseworker should ensure all SI tasks are entered into the Recovery page
  - Participate in Youth Recovery Meeting, if confirmed victim

**Ensure all recovery information is documented in IMPACT including interview, contacts made, and any other relevant information to the recovery**

- Create referral to Statewide Intake, if needed

**Complete CSE-IT Tool**

- Forward all documents to primary caseworker for case file

**Staff case with Special Investigator**

- Arrive to be removed as secondary worker

- Arrange Follow-up Services
**APPENDIX E: Human Trafficking Support Systems (alphabetical order)**

**Care Coordination Teams**
The Office of the Texas Governor – Child Sex Trafficking Team (CSTT) is establishing Care Coordination Teams (CCT) across the state to provide youth victims of sex trafficking with a continuum of care. The CCT is made up of professionals in the community who provide services for trafficking victims, or who investigate and prosecute trafficking cases.

In an area where the Care Coordination Team (CCT) exists, it is the default structure for referring youth identified as human trafficking victims. When the CCT structure is used, the local CCT protocol provides the applicable response guidelines and time frames. *Local CCT protocols may have narrower time frames than the DFPS Human Trafficking protocol, so staff should be well versed in their local CCT protocols.*

If DFPS chooses *not* to use the CCT on a specific case, staff must:
- Obtain program director approval to opt out of the CCT process.
- Provide clear documentation within the case narrative as to why DFPS opted out of the CCT process.

A referral to the CCT may occur at any point in the life of a youth’s case.

**Decisions within the Care Coordination Team structure**
For youth in conservatorship:
- All final decisions on placement, services, and/or referrals for the youth lie with DFPS, as the youth’s legal guardian.
- CCT recommendations must be strongly considered.
- DFPS must clearly document the CCT recommendations and any reasons for not following CCT recommendations.

**Children’s Advocacy Center**
Children’s Advocacy Centers (CACs) provide a safe, child-friendly environment where law enforcement, Child Protective Services, prosecution, medical and mental health professionals may share information and develop effective, coordinated strategies sensitive to the needs of each unique case and child or youth.

Local CACs provide an array of child-focused services including:
- Multidisciplinary team case reviews.
- Joint investigation coordination.
- Specialized forensic interviews.
- Family advocacy and victim support.
- Trauma-focused therapy.
- Medical evaluations.

**Commercial Sexual Exploitation – Identification Tool**
West Coast Children’s Clinic developed and validated the Commercial Sexual Exploitation – Identification Tool (CSE-IT – pronounced “see it”), a screening tool that aids in detecting *risk of sexual exploitation*. The tool is designed to ensure early identification of sexual exploitation and protect youth from prolonged abuse and violence. It is important to note that screening is not diagnostic. Rather, it is a preliminary step that prompts additional information gathering and interventions if problems or concerns are identified.

DFPS will complete a CSE-IT for the following populations:
- **Human Trafficking Investigations** all alleged victims 10 years of age or older in an assigned Sex Trafficking (SXTR) investigation.
- **Youth at Risk** are children 12 years of age or older, in DFPS conservatorship, with five or more placements.
- **Youth at High Risk** are children 10 years of age or older, in DFPS conservatorship, who are recovered from a missing or runaway episode. Note: This resource guide only addresses this population.

All assigned staff, including supervisors, are responsible for providing information that informs the CSE-IT so the agency can respond appropriately to meet the child or youth’s needs. The CSE-IT should be used as a guide to identification and should not be the sole source for deciding whether the youth is being sexually exploited. The completed CSE-IT will result in a total number that indicates the youth’s **level of risk** as:
- No Concern.
- Possible Concern.
- Clear Concern.

When CSE-IT results in **No Concern**, the case will continue to be worked according to current policy and practices.

When CSE-IT results in **Possible or Clear Concern**, a staffing should be held to discuss potential risk as well as mitigating factors and determine if services are needed to reduce the risk of exploitation. Additional steps for the staffing are addressed within each respective critical area (Human Trafficking Investigation, Youth at Risk, and Youth at High Risk).

**Rescreening Criteria**
Anytime, a child or youth is specifically suspected to be at risk of sexual exploitation. Reminder: CSE-IT is validated for children or youth 10 years of age and up.

For **Youth at High Risk**, a CSE-IT should be conducted at every recovery, if the previous results are No or Possible Concern.

**Human Trafficking Advocate Agency**
Human Trafficking Advocate Agencies (HTAA) provide Child Sex Trafficking Advocates that are specifically trained to offer a variety of services that may include: crisis intervention, ongoing case management, and healthy, supportive long-term relationships for survivors.

**Commercially Sexually Exploited Youth Advocacy Agencies**
Commercially Sexually Exploited Youth (CSEY) Advocate Agencies are supported by the Governor’s Child Sex Trafficking Team (CSTT) with funding, training, and technical assistance. CSEY Advocate Agencies agree to abide by a set of common minimum standards and best practices developed by CSTT in coordination with Praesidium.

CSEY Advocacy Agencies are nonprofit that employ advocates to provide individualized 24/7 crisis response and ongoing trust-based relational support to child, youth, and young adult survivors (up to age 22). CSEY Advocates may also provide robust case management that is flexible to support and not duplicate, replace or interfere with efforts of other case managers and advocates. CSEY Advocates work collaboratively with other stakeholders in support of the victim-centered goals pursued by the survivor and their family, law enforcement, prosecutors, child welfare, juvenile justice, healthcare, and other partners. They help survivors gain the strength and empowerment needed to participate in investigation/prosecution of exploiters.

**Referrals for a HT/CSEY Advocate**
For children or youth in conservatorship:
- Children or youth in DFPS conservatorship who are victims of sex trafficking may access HT/ CSEY Advocate Agency services. Some HT/CSEY Advocate Agencies may serve Youth at Risk.
- Engagement with a HT/CSEY Advocate Agency is optional, if the youth has not previously been matched with an advocate.
• DFPS must provide clear documentation within the case narrative regarding why the decision to opt in or opt out was made.
• DFPS must provide written approval for services prior to an HT/CSEY Advocate engaging with a child or youth in DFPS conservatorship. The signature for consent may be provided by:
  • The child’s or youth’s DFPS primary caseworker.
  • The child’s or youth’s DFPS primary caseworker’s supervisor.
  • The child’s or youth’s current caregiver, with written approval from the child’s or youth’s DFPS primary caseworker/supervisor.

A referral to a HT/CSEY Advocate Agency may occur at any point in the life of the child or youth’s case.

If at any time either DFPS or HT/CSEY Advocate Agency determines that the Advocate relationship is not in the best interest of the child or youth, either party shall notify the other party within 48 hours and initiate a staffing regarding what actions need to be taken, including but not limited to the termination of the Advocate relationship with the child or youth.

**Recovery Meetings for Confirmed Victims**

Within two business days after DFPS learns that a child or youth is missing or has run away from care who is a confirmed victim of trafficking, a Recovery Meeting is held. The Recovery Meeting participants will develop a Recovery Plan. The goal of the Recovery Meeting is to ensure the appropriate actions are being taken to recover the child or youth as quickly as possible and appropriate interventions and services are initiated for the child or youth upon recovery.

Recovery Meetings are optional on a case by case basis for any other child or youth who is not a confirmed victim of trafficking and is missing or has run away from care.

Within three business days of recovery for confirmed victims of trafficking, a subsequent Recovery Meeting will be held to ensure appropriate actions are being taken and appropriate interventions and services are initiated. If a Youth Recovery Roundtable (i.e. wraparound meeting) is scheduled with the child or youth within 72 hours of recovery, then the Recovery Meeting will be held in conjunction with this planning meeting.

Recovery meetings for a youth who runs away chronically may not require a Recovery Meeting at every recovery. Whether or not to hold a Recovery Meeting in these circumstances will be made on a case by case basis. Example: If an updated plan is needed, or CCT or HT/CSEY Advocate is being reconsidered.

**Recovery Meeting Participants**

The Recovery Meeting may include the following:

<table>
<thead>
<tr>
<th>DFPS</th>

**Recovery Meeting Plan**

The Recovery Meeting participants will develop a Recovery Plan. The Recovery Plan is a coordinated outline
of all planned and active efforts to recover a youth and preliminary interventions and services to be initiated for the child or youth upon recovery. The plan can be revised throughout the missing/runaway episode as needed. The plan will include, but is not be limited to:

• Information regarding locating the child or youth
• Tasks assigned to Recovery Meeting Participants.
• Potential engagement with a CCT.
• Potential engagement with a HT/CSEY Advocate.
• Potential engagement with a CAC.
• Youth’s placement options upon recovery.
• A communication plan which includes the frequency of updates and meetings.
